SWMPP Update Review

Ashley Campbell

From: Michele Hanson
Sent: Monday, March 24, 2014 10:58 AM
To: Adrienne Jones; Art Hosey; Rebecca A. Hayes; bldgmaintspvr@daphneal.com; Bret M. Webb Ph D; Carl Pinyerd, III; Chester McConnell (wmicmc@bellsouth.net); Pat Rudicell; John Lake; Elliott Riser; Ashley Campbell; Fred Nation; John W. Peterson, P.E.; Dane Haygood; Richard Johnson; Sarah Toulson (Assistant City Clerk); Stan Arbaczauskas; Tracy Miller
Subject: FW: MS4 Updated SWMP Plan and Annual Compliance Report
Attachments: 2014 UPDATED DAPHNE SWMPP FINAL.pdf; 2013-2014 MS4 Compliance Reports.pdf

Good Morning,

Ashley has asked that I forward this to you for the meeting this afternoon. Hope to see you all there.

Michele T. Hanson
Public Works Assistant

From: Ashley Campbell
Sent: Monday, March 24, 2014 10:54 AM
To: Richard D. Johnson, P.E.; Michele Hanson
Subject: MS4 Updated SWMP Plan and Annual Compliance Report

Richard,

I have attached the updated (changes highlighted in yellow) to the City's 2014 Stormwater Management Plan and our 2013-2014 Compliance Report for today's EAC meeting. Can you forward these to the EAC members for review? To save trees and money, I was not planning on printing these items. Thanks,

Ashley Campbell, CPESC

Re: 2013 – 12th Annual Coastal Kids Quiz
The Project CATE Foundation, Inc.
The Alabama Coastal Foundation
Thank You For Your Support and Participation

Dear Adrienne:

You have shown tremendous dedication and enthusiasm as a volunteer to The Project CATE Foundation, Inc., the Alabama Coastal Foundation and most especially to the Coastal Kids Quiz. You do not know how much of a cure for anxiety, hypertension, insomnia you are. In other words, we depend on you and couldn't do any of this without you.

Thank you for everything that you have done to make the Quiz work, exciting and educational. I had a great deal of fun and it was obvious that the students were "into the program." I know they will continue their conservation education and be active participants in their communities. Please let me know if there is anything that we can do for you, and thanks again.

Yours very truly,

Neil C. Johnston
President, The Project CATE Foundation, Inc.
Member, Board of Directors of
The Alabama Coastal Foundation
For the Coastal Kids Quiz

NCJ:lh
Enclosure
1737729_1

P.S.: We have prepared a post-program "Book of Memories" and enclose a copy for you. We are thankful for all of our sponsors and hope that you will join us in thanking them whenever you see them. The Book of Memories shows all of the logos as well as names and contact information. Please feel free to contact any of them at any time to compliment them on their decision to support the Coastal Kids Quiz. I hope we see you in 2014 for the 13th Annual Coastal Kids Quiz. NCJ

*Adrienne -
I also enclose a
T-shirt & Hat for you -
Thank you
Neil*

Community Clean-Up Day

ALABAMA COASTAL CLEANUP STATE COORDINATOR

The Alabama Coastal Cleanup is administered through the Alabama Department of Conservation & Natural Resources, State Lands Division, Coastal Section and Alabama People Against a Littered State (PALS)

Dedicated to striking a balance between economic growth and preserving Alabama's coastal natural resources, Alabama Coastal Area Management Program has been involved with organizing the Alabama Cleanup since it began in 1987.

Alabama PALS is a proud team player of the Alabama Coastal Cleanup. As an organization founded on the purpose of creating a litter-free State, PALS offers several programs year round that promote litter-free ethic. For more information, call 800-ALA-PALS.

PALS Programs

- Adopt-A-Mile
- Adopt-A-Stream
- Adopt-An-Area
- "Don't Drop It On Alabama" Spring Cleanup
- The Alabama Clean Campus Program
- The Alabama Adopt-A-Beach Program
- The Annual Litter Law Enforcement Conference
- The PALS Litter Education Curriculum

The National Oceanic and Atmospheric Administration's (NOAA) Office of Ocean and Coastal Resource Management administers the Coastal Zone Management Act which provides for the management of the nation's coastal resources and balances economic development with environmental conservation.

Funding for this brochure provided by the Alabama Department of Conservation and Natural Resources, State Lands Division, Coastal Section, in part, from a grant by the National Oceanic and Atmosphere Administration, Office of Ocean and Coastal Resource Management. Award #: NA06NOS4190235

ALABAMA COASTAL CLEANUP SPONSORSHIP OPPORTUNITIES

A black and white photograph of a beach scene with a banner. The banner is curved and contains the text "Get the Trash out of the Splash". The background shows a beach with some vegetation in the foreground and a cloudy sky.

Get the Trash out of the Splash

Alabama Coastal Cleanup Day, the third Saturday in September, is the State's largest volunteer event in support of a debris-free marine environment. Every year thousands of volunteers scour Alabama's beaches, coastlines and waterways in the effort to "Get the Trash Out of the Splash!" This volunteer commitment shows the importance of this unique event.

We would like to invite you and your business to be a partner in this event through your support and participation in the Annual Alabama Coastal Cleanup.

www.AlabamaCoastalCleanup.com

Sponsorship Opportunities

Take a look at some of the opportunities that Alabama Coastal Cleanup can provide for you ...

- Establish your company as a strong supporter and protector of Alabama's beautiful beaches and waterways
- Corporate visibility on Coastal Cleanup Day and opportunities for "team building" among employees with their participation
- Numerous opportunities for logo and name placement on promotional materials including brochures, posters, t-shirts, water bottles and other media outlets

Dolphin Sponsor

\$10,000 +

- Presenting Sponsor name included as part of event title in all promotional materials generated in-house and in all media outreach efforts including press releases, paid newspaper ad space, radio announcements and public service announcements
- Most prominent positioning of your logo:
 - on Coastal Cleanup t-shirts
 - on Coastal Cleanup posters
 - on Coastal Cleanup website, with link to company website
 - on Coastal Cleanup brochures
- Most prominent position of your logo on banner at Coastal Cleanup Day's main beach sites
- Opportunity to include product sample or information to volunteers

Sea Turtle Sponsor

\$5,000 +

- Sponsorship recognition featured in press releases and donated newspaper ad space, radio advertisements and public service announcements, and presented in promotional materials generated in-house
- Your logo included:
 - on Coastal Cleanup t-shirts
 - on Coastal Cleanup posters
 - on Coastal Cleanup website, with link to company website
 - on Coastal Cleanup brochures
- Prominent position for your logo on banner at Coastal Cleanup Day's main beach sites
- Opportunity to include product sample or information to volunteers

Dune Sponsor

\$2,000 +

- Sponsorship recognition featured in press releases and donated newspaper ad space, radio advertisements and public service announcements, and presented in promotional materials generated in-house
- Your logo included:
 - on Coastal Cleanup t-shirts
 - on Coastal Cleanup posters
 - on Coastal Cleanup website, with link to company website
 - on Coastal Cleanup brochures
- Position for your logo on banner at Coastal Cleanup Day's main beach sites

Pelican Sponsor

\$1,000 +

- Sponsorship recognition on selected promotional materials generated in-house and in selected media outreach efforts
- Your company name included:
 - on Coastal Cleanup posters
 - on Coastal Cleanup website
 - on Coastal Cleanup brochures

Seagull Sponsor

\$500 +

- Your company name included:
 - on Coastal Cleanup posters
 - on Coastal Cleanup website
 - on Coastal Cleanup brochures

RECYCLETTER

CITY OF DAPHNE DIVISION OF PUBLIC WORKS
"RECYCLE DAPHNE"

DAPHNE RECEIVES GRANT

"The City of Daphne receives a \$72,941.86 recycling grant from the Alabama Department of Environmental Management (ADEM)"

The grant funds were awarded to the City of Daphne's "RecycleDaphne" program. It will enhance our program by maximizing participation, reducing the operation costs, and provide a convenient service to neighboring communities that do not have recycling service available. This effort will also help meet the State of Alabama 25% landfill reduction rate.

The City of Daphne, with the help of ADEM has purchased three trailers for use at special events, recycle carts, public service announcements, and educational materials.

Many thanks to our surrounding community supporters: ADEM, Belforest Fire Department, Daphne Utilities, SEEDS, Park City Water Authority and Belforest Water Authority for partnering with the city to aid in the enhancement of our recycle program.

For more recycling information, tours, presentations and community events please call the Solid Waste Coordinator at 251-621-3182.

New Recycle Trailers are on the way to a location near you. One trailer will be stationed at Belforest Fire Department; one at the Northeast end of the city near Spanish Fort Mall and the third one will be a mobile unit for special events, school tours, etc.

Educational and promotion items and recycle carts provided by ADEM grant.

CITY OF DAPHNE

ARBOR DAY TREE GIVE-AWAY

The Daphne Beautification Committee and the Daphne Public Works Department have planned an exciting "Arbor Day" celebration for the citizens of the City of Daphne.

Saturday – February 15, 2014
Daphne Civic Center 7:00 AM
(in front of the Recreation Department)
2605 Highway 98
Daphne, AL 36526

3,700 Trees will be given away as part of the City's Arbor Day celebration to promote the Jubilee City's beautification and the need to plant trees for a healthier environment.

There will be 20 different species available:

Crape Myrtles (red, white, pink, purple)
White Dogwood
Eastern Redbud
Tulip Poplar
Southern Magnolia
Sweetbay Magnolia
Okame Cherry
Yoshino Cherry
Ironwood
Hornbeam

River Birch
Red Maple
Bald Cypress
Willow Oak
Sourwood
Ginkgo
Carolina Silverbell
Saucer Magnolia
Hackberry
Fringe – Grancy Graybeard

Additional contributors: Future Farmers of America Chapter & John Manning–Daphne High School Teacher (preparation of trees), Daphne Utilities will be supplying hot dogs and bottled water, Starbucks will be providing coffee, Girl Scout Troops 8012, 8278 & 8195 will be selling Girl Scout Cookies and Baldwin County Master Gardeners will be on hand to assist with planting information. Coca Cola Bottling Company Consolidated will provide bottled water.

Thanks to Riviera Utilities for their contribution and assistance.

Daphne Utilities will be giving away packaged fertilizer for the trees.

[Home](#) | [Stormwater Runoff](#) | [Watersheds](#) | [Stormwater Management](#)

Stormwater Runoff

Stormwater runoff is generated when water from rain or other precipitation flows over land or impervious surfaces (such as paved streets, parking lots, and building rooftops) and does not seep into the ground. As this runoff flows, it accumulates debris, chemicals, sediment and other pollutants that could harm water quality if it is discharged untreated into our local water bodies.

[back to top](#)

Watersheds

Information coming soon!

[back to top](#)

Stormwater Management (MS4)

Under the 1987 Clean Water Act Amendments, the U.S. EPA developed new stormwater regulations to address storm water that might impact water quality. These new regulations were set up in a two Phase National Polluted Discharge Elimination System (NPDES) permitting approach based upon population and are enforced by the U.S. EPA, delegated to most States. The expression Municipal Separate Storm Sewer System (MS4) was given to the permittees. The regulatory definition of an MS4 (40 CFR 122.26(b)(8)) is "a conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains): (i) Owned or operated by a state, city, town, borough, county, parish, district, association, or other public body (created to or pursuant to state law) including special districts under state law such as a sewer district, flood control district or drainage district, or similar entity, or an Indian tribe or an authorized Indian tribal organization, or a designated and approved management agency under section 208 of the Clean Water Act that discharges into waters of the United States. (ii) Designed or used for collecting or conveying stormwater, (iii) Which is not a combined sewer, and (iv) Which is not part of a Publicly Owned Treatment Works (POTW) as defined at 40 CFR 122.2." In practical terms, operators of MS4s can include municipalities, counties, state and federal departments of transportation, and public universities.

Phase I, issued in 1990, dealt with MS4s serving an urban population greater than 100,000 people and in Alabama. There are approximately 750 Phase I MS4s in the United States (US).

Phase II, issued in 1999, requires regulated small MS4s in urbanized areas, as well as small MS4s outside the urbanized areas that are designated by the permitting authority, to obtain NPDES permit coverage for their stormwater discharges. The City of Daphne fell into this phase of permitting. There are approximately 6,700 Phase II MS4s in the US.

In Alabama, the Alabama Department of Environmental Management (ADEM) enforces the NPDES MS4 permitting program. In 2012, the City of Daphne was designated by ADEM as an owner/operator of a Phase II MS4. The City received its initial MS4 Phase II Stormwater NPDES permit ALR040039 ([Link to permit](#)) on December 21, 2011. The current permit coverage will expire on January 31, 2016.

The intent of the Phase II regulations is to reduce the adverse impacts to water quality and aquatic habitat by the development of a stormwater management program, instituting the use of controls and measurable goals for the following six stormwater related *“Minimum Control Measures (MCM)”*

- **Public Education and Outreach MCM** – The Public Education and Outreach (MCM 1) requires the City to implement and evaluate a public education and outreach program that distributes educational materials to the community or conducts equivalent outreach activities about the impacts polluted discharges on water bodies and the steps that the public can take to reduce pollutants in stormwater runoff to the maximum extent practical.
- **Public Participation / Involvement** – The Public Participation / Involvement (MCM 2) requires the City to develop, implement and evaluate a public participation program centered on the City's Stormwater Management Program and its annual report. Ongoing activities for public involvement may include advisory councils, watershed associations, committees, stewardship programs and other environmental related activities.
- **Illicit Discharge Detection and Elimination (IDDE)** – The Illicit Discharge Detection and Elimination (MCM 3) requires the City to develop, implement, enforce, and evaluate a program to detect and eliminate illicit discharges and improper disposal, including spills not under the purview of another responding authority, into the City's regulated MS4 area, to the maximum extent practicable.
- **Construction Site Runoff Control** – The Construction Site Stormwater Runoff Control (MCM 4) requires the development, implementation, and enforcement of a program to reduce, to the maximum extent practicable, pollutants in any stormwater runoff to the MS4 from construction activities that result in a total land disturbance of greater than or equal to one (1) acre and activities that disturb less than one (1) acre but are part of a larger common plan of development or sale that would disturb one (1) acre or more.
- **Post-Construction Stormwater Management** – The Post-Construction Stormwater Management (MCM 5) goal is to minimize water quality impacts from new development and re-development sites by ensuring the implementation of proper Best Management Practices and their long term maintenance.
- **Pollution Prevention / Good Housekeeping** – The Pollution Prevention / Good Housekeeping for Municipal Operations (MCM 6) requires the City to develop and implement a program for pollution prevention and good housekeeping for its municipal operations. It also requires the development and implementation of an employee training program designed to prevent and reduce stormwater pollutants, to the maximum extent practicable, in areas such as parks maintenance, fleet and building maintenance, new construction and land disturbances, stormwater system maintenance, and all other applicable municipal operations.

Report Illegal Discharge

If you believe that pollutants are being discharged into Daphne creeks, or the city's storm sewer system, please contact us using one of the following methods:

- Call our office at (251) 621-3080, or
- Fill out the [Reporting Illicit Discharge Form](#). Please submit the form by:
 - Email: acampbell@daphneal.com
 - Mail: P.O. Box 400, Daphne, AL 36526

Please ensure the following information is provided in your e-mail or voice mail:

- Name
- Address
- Phone
- Location or Address of Problem
- Type of Problem
- Date of occurrence
- Name of company and/or description of individuals involved

IF YOU ARE REPORTING AN EMERGENCY SITUATION THAT COULD RESULT IN IMMINENT AND SUBSTANTIAL DANGER TO THE HEALTH AND SAFETY OF PERSONS, PLEASE DISREGARD THE FORM AND CALL 911.

The City of Daphne provides this service to allow concerned citizens to file e-mail or telephone/voice mail reports regarding the discharge of pollutants to rivers, creeks, and the storm sewer system within the city limits of Daphne. A tracking number will be assigned to each complaint received and an investigation initiated. The results of the investigation and any actions taken shall be documented and submitted to ADEM in the City's annual storm water program report.

Note: Anonymous complaints received by e-mail or telephone, or complaints with unverifiable contact information cannot be investigated. It is the policy of the City of Daphne to keep contact information confidential.

False Complaints

Please remember that reporting violations of environmental laws is a serious matter, and could result in criminal and/ or civil sanctions being assessed against the person or company being reported. Knowingly or intentionally making a false complaint is a violation of Alabama Law.

Stormwater Runoff

Stormwater runoff is generated when water from rain or other precipitation flows over land or impervious surfaces (such as paved streets, parking lots, and building rooftops) and does not seep into the ground. As this runoff flows, it accumulates debris, chemicals, sediment and other pollutants that could harm water quality if it is discharged untreated into our local water bodies.

Stormwater Management (MS4)

Under the 1987 Clean Water Act Amendments, the U.S. EPA developed new stormwater regulations to address storm water that might impact water quality. These new regulations were set up in a two Phase National Polluted Discharge Elimination System (NPDES) permitting approach based upon population and are enforced by the U.S. EPA, delegated to most States. The expression Municipal Separate Storm Sewer System (MS4) was given to the permittees. The regulatory definition of an MS4 (40 CFR 122.2b(8)) is "a conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains): (i) Owned or operated by a state, city, town, borough, county, parish, district, association, or other public body (created to or pursuant to state law) including special districts under state law such as a sewer district, flood control district or drainage district, or similar entity, or an Indian tribe or an authorized Indian tribal organization, or a designated and approved management agency under section 208 of the Clean Water Act that discharges into waters of the United States. (ii) Designed or used for collecting or conveying stormwater, (iii) Which is not a combined sewer, and (iv) Which is not part of a Publicly Owned Treatment Works (POTW) as defined at 40 CFR 122.2." In practical terms, operators of MS4s can include municipalities, counties, state and federal departments of transportation, and public universities.

Phase I, issued in 1990, dealt with MS4s serving an urban population greater than 100,000 people and in Alabama. There are approximately 750 Phase I MS4s in the United States (US).

Phase II, issued in 1999, requires regulated small MS4s in urbanized areas, as well as small MS4s outside the urbanized areas that are designated by the permitting authority, to obtain NPDES permit coverage for their stormwater discharges. The City of Daphne fell into this phase of permitting. There are approximately 6,700 Phase II MS4s in the US.

In Alabama, the Alabama Department of Environmental Management (ADEM) enforces the NPDES MS4 permitting program. In 2012, the City of Daphne was designated by ADEM as an owner/operator of a Phase II MS4. The City received its initial MS4 Phase II Stormwater NPDES permit ALR040039 (Link to permit) on December 21, 2011. The current permit coverage will expire on January 31, 2016.

The intent of the Phase II regulations is to reduce the adverse impacts to water quality and aquatic habitat by the development of a stormwater management program, instituting the use of controls and measurable goals for the following six stormwater related *"Minimum Control Measures (MCM)"*

- **Public Education and Outreach MCM** – The Public Education and Outreach (MCM 1) requires the City to implement and evaluate a public education and outreach program that distributes educational materials to the community or conducts equivalent outreach activities about the impacts polluted discharges on water bodies and the steps that the public can take to reduce pollutants in stormwater runoff to the maximum extent practical.
- **Public Participation / Involvement** – The Public Participation / Involvement (MCM 2) requires the City to develop, implement and evaluate a public participation program centered on the City's Stormwater Management Program and its annual report. Ongoing activities for public involvement may include advisory councils, watershed associations, committees, stewardship programs and other environmental related activities.
- **Illicit Discharge Detection and Elimination (IDDE)** – The Illicit Discharge Detection and Elimination (MCM 3) requires the City to develop, implement, enforce, and evaluate a program to detect and eliminate illicit discharges and improper disposal, including spills not under the purview of another responding authority, into the City's regulated MS4 area, to the maximum extent practicable.
- **Construction Site Runoff Control** – The Construction Site Stormwater Runoff Control (MCM 4) requires the development, implementation, and enforcement of a program to reduce, to the maximum extent practicable, pollutants in any stormwater runoff to the MS4 from construction activities that result in a total land disturbance of greater than or equal to one (1) acre and activities that disturb less than one (1) acre but are part of a larger common plan of development or sale that would disturb one (1) acre or more.
- **Post-Construction Stormwater Management** – The Post-Construction Stormwater Management (MCM 5) goal is to minimize water quality impacts from new development and re-development sites by ensuring the implementation of proper Best Management Practices and their long term maintenance.
- **Pollution Prevention / Good Housekeeping** – The Pollution Prevention / Good Housekeeping for Municipal Operations (MCM 6) requires the City to develop and implement a program for pollution prevention and good housekeeping for its municipal operations. It also requires the development and implementation of an employee training program designed to prevent and reduce stormwater pollutants, to the maximum extent practicable, in areas such as parks maintenance, fleet and building maintenance, new construction and land disturbances, stormwater system maintenance, and all other applicable municipal operations.

Report Illegal Discharge

If you believe that pollutants are being discharged into Daphne creeks, or the city's storm sewer system, please contact us using one of the following methods:

- Call our office at (251) 621-3080, or
- Fill out the [Reporting Illicit Discharge Form](#). Please submit the form by:
 - Email: acampbell@daphneal.com
 - Mail: P.O. Box 400, Daphne, AL 36526

Please ensure the following information is provided in your e-mail or voice mail:

- Name
- Address
- Phone
- Location or Address of Problem
- Type of Problem
- Date of occurrence
- Name of company and/or description of individuals involved

IF YOU ARE REPORTING AN EMERGENCY SITUATION THAT COULD RESULT IN IMMEDIATE AND SUBSTANTIAL DANGER TO THE HEALTH AND SAFETY OF PERSONS, PLEASE DISREGARD THE FORM AND CALL 911.

The City of Daphne provides this service to allow concerned citizens to file e-mail or telephone/voice mail reports regarding the discharge of pollutants to rivers, creeks, and the storm sewer system within the city limits of Daphne. A tracking number will be assigned to each complaint received and an investigation initiated. The results of the investigation and any actions taken shall be documented and submitted to ADEM in the City's annual storm water program report.

Note: Anonymous complaints received by e-mail or telephone, or complaints with unverifiable contact information cannot be investigated. It is the policy of the City of Daphne to keep contact information confidential.

False Complaints

Please remember that reporting violations of environmental laws is a serious matter, and could result in criminal and/or civil sanctions being assessed against the person or company being reported. Knowingly or intentionally making a false complaint is a violation of Alabama Law.

Dapline

Eastern Shore Phase II MS4s Annual Meeting

11-21-2013

9:00am

Meeting Minutes

In attendance: Ashley Campbell, Bruce Renkert, Celena Boykin, Kim Burmeister
(Updated on 12/13/13)

Items Discussed

Create a Clean Water Future

Each MS4 was given a Create a Clean Water Future folder with the campaign's outreach items included. The video and other media items were viewed and everyone was informed that the use of media is free. The group discussed how the Create a Clean Water Future campaign could help us with our MS4 Education Outreach compliance. The group was also shown the new Mobile Bay National Estuary Program's new MS4 Education Outreach Video. The video summarizes the MS4 Permitting Program. The video is also free for use.

The group discussed sponsoring a 2014 Non-Point Source Education for Municipal Officials (NEMO). The event will be held in early February. All local Councilmen, Commissioner and Mayors will be asked to attend the event. More information will be coming soon....

Baldwin County's 2014 Hazardous Waste Program

Celena was asked if the other ES-MS4s could participate in the County's next Hazardous Waste Collection Event. Celena stated she would discuss our participation with her supervisor and let us know.

ES MS4 Sponsored Rain Barrel Workshop

The workshop was discussed. The Workshop will be held on Friday, December 13th at 3:00pm, Daphne City Hall. The ES-MS4s are all sponsoring the event and will place the Rain Barrel registration brochure in their public places.

Eastern Shore Phase II MS4s Annual Meeting

11-21-2013

Agenda

In attendance: Ashley Campbell, Bruce Renkert, Celena Boykin, (Kim Burmeister will be updated on 12-13-13)
